Hard Skills

- UI/UX
- Responsive web design
- API integration
- Version control
- Agile Teams Environment

Soft Skills

- Self-learning
- Multi-lingual
- Good Communication
- Multi-tasking
- Analytical Thinking

Education

- **Aditya school of computer sciences**

Bachelor's in computer applications

2018-2021

Languages

- English *professional*
- Hindi *bilingual*
- Telugu *native*

Professional Experience

Cloudseed Technologies LLP

2021 - Present

Archiflo

Angular, Node JS, Mongo DB

Archiflo is a centralized platform connecting vendors, manufacturers, architects, and designers. It offers a wide array of textures and materials, simplifying the sourcing process. Archiflo serves as a one-stop hub, facilitating collaboration and providing easy access to diverse resources for seamless integration into architectural and design projects.

Key responsibilities:

- Designing and developing the front-end using Angular
- Development of Angular components, API integration and UI framework
- Resolving technical issues for system stability.

brudata.ai

Angular, Python, Node JS

Brudata is an advanced test data management solution that automates data generation, prioritizes privacy, and enhances testing efficiency. With its cutting-edge features, Brudata revolutionizes the way organizations handle test data, ensuring accurate and secure testing processes..

Key responsibilities:

- Designing and developing the Brudata test data management solution.
- Development, API integration.
- Development of reusable components to reuse the code.

SME Connect (supporting EY PropositionI for FAB Bank)

Angular, Java(Spring Boot) , Mysql

SME Connect is a powerful networking platform designed to empower small to medium-sized enterprises (SMEs). It provides a collaborative space for SMEs to connect with like-minded partners, access new markets, and discover fresh business opportunities. With AI-powered features and cloud-based technology, SME Connect offers valuable tools, knowledge, and resources to support SME growth and success

Key responsibilities:

- Develop and implement front-end components using Angular.
- Integrate front-end components with Java back-end services.
- Ensure code quality, performance, and scalability.

Keleris Railcar services

Angular, Node JS , Mysql

Keleris Railcar services is a platform and ecosystem enabling its repair service providers to collaboratively manage auto claims, workflows, communication, and visibility to control and minimize costs.

Key responsibilities:

- Develop and implement front-end components using Angular.
- API Integrations with the backend
